XegkBO	z74qOZ	2023-10-27 14:26	sharing and caring of people no matter how we are different
OAgs98p	vDKEZg	2023-10-27 14:27	At first, not a lot to be honest. I didn't come very often because I didn't feel that I belonged. Then, with the hunt, I hung out here quite a bit. I enjoyed sending drag-race GIF and actually having people responding with memes from the franchise :-)
24Zgr9	07ygD7	2023-10-27 14:39	Community means, communication with people, talking about your hobbies, giving and asking for help. Exploring new things, having a good time together and learn new things. And for me, trying to improve my bad english language skills.
dYpX6N	PzgKbd	2023-10-27 14:52	The community means to me a really friendly and openminded group of people all uniting with the sole purpose to have the best time possible and make the best of our life. We only have one life and we have to share the good times together with each other and see where it takes us, not only where you live, but everywhere in the world, united as one.
6d9Gdo	2KVOdA	2023-10-27 14:53	Community means to me being there for each other, stand up for each other, protect each other, reach out for one another, party together, laugh together, cry together, drink together, celebrate together. Live today, love tomorrow, unite forever!
OAgsKPM	RD2aP9	2023-10-27 14:53	Community means a group of people bonded with similar interest or goals
6d9GVP	ropLA2	2023-10-27 14:58	community can mean a lot of things, for me the most important thing about a community is feeling like you belong. feeling like helping each other and having a good time together. only place I get that these days are festivals, at a festival I feel like we're all just one big community. everyone helps each other, everyone looks out for each other etc.
EPgep2	Y4elVN	2023-10-27 15:02	A like-minded group of individuals sharing a collective and common interest, a group of friends!
zKO4pM	XJgb9E	2023-10-27 15:02	I get to see what's going on around the world with lots of different people. And have fun trying to play games and answer questions. Missed the meeting at TML 2023 as we were on the other side of the park at the Tattoo shop when everyone meet up at the main stage. Hopefully new friendships made and meeting like minded people from around the world.
VZda9N	i659L6	2023-10-27 15:06	Honestly, a lot. If I have a bad day, I can go on Discord and instantly get cheered up by the community.
NAgsR0	GRgAKk	2023-10-27 15:07	Tomorrowland NFT community is a Home to me
qbpcK0	Pz4vJB	2023-10-27 15:07	The community is a great way to communicate with people who also are very interested in Tomorrowland. It's lovely and amazing to see that so many people feel so connected to each other thanks to this wonderful festival !
XegAej	Exge9o	2023-10-27 15:17	Community means alot there is a high probability I wouldn't be where I am today without the help of the Tomorrowland community I have met so many great friends, there are always people that wants to meet up no matter where you go. to say the community has changed my life is an understatement. I have made friends for life and it has helped me through depression. Its the best online community anyone could ever wish for
J2gjvo	QMgWqA	2023-10-27 15:25	We create wonderful memories in old age. There's a lot of fun!
1rx0JW	97xxVQ	2023-10-27 15:26	For me, a community is a bunch of diverse people who share certain traits that bring them together. We all need a place to belong. Finding the right fit might take some time, but once you do, you gain a new family. A family that celebrates your achievements has your back during tough times and shares epic moments with you. A family that just gets you and accepts you for who you are. That's precisely what the Tomorrowland NFT community is for me. They've helped me forget my worries and have put a smile on my face many times just by existing and letting me be a part of it.
7de0B9	i6gVQo	2023-10-27 15:27	Nice to find/chat with other people who enjoy Tomorrowland as much as myself. Most of my friends here don't understand and think it must be a cult to fly from North America to Europe every year for a festival!
Rzgz2P	ExpbbI	2023-10-27 15:37	Means to have friendly people around me that share the same joys of life, share the same values love the same music and hate the misery and wars that are happening around us. Online or offline. And ofcourse community means also to love the Tomorrowland vision and thoughts that makes this world a little bit a better place.
9daA5K	KzDKBD	2023-10-27 15:38	Community is like a big, friendly warm hug. It's where we all come together, share stories, have fun with Larry and have each other's backs. It's where kindness rules, laughter is a daily thing, and you're part of something awesome. In a community, we're strong, we get each other, and life's just better together.
Ldg4BJ	2KZpLg	2023-10-27 15:39	The Medallion has given me much more than I expected. It gives you a sliver of TML vibe all around the year. There's a big chance to win prizes and the extra's done at the festival are amazing. Sometimes sucks there needs to be a draw, but I was lucky to mostly win what I wanted. I just love everything around the festival and the NFTs have elevated that experience even more.
LdgLZ1	471dbd	2023-10-27 15:43	I'm not that much in to the community. I bought the NFT's mostly because of the benefits that comes with them. But the scavenger hunt was a really good way to become more active in the community and on Discord. The community to me is a group of people that all share the same love for Tomorrowland, regardless where you are from, who you are and how you look.
dYpeWA	6ZzGjB	2023-10-27 15:43	It means sharing experiences and knowledge!
INSkd6	2XvVDV	2023-10-27 15:46	a group of people living that have the same passion, like friends
OAgsMAM	Y4gA50	2023-10-27 15:47	Community for me is the fact that, whether you come every day, once a week, once a month, every 6 months you will always be well received with friendly people and ready to chat as if you knew each other for 10 years
OAgsM0M	xizGGd	2023-10-27 15:47	it's meeting new people, connecting together around the world and make new friendship.
XegPRL	r5E08p	2023-10-27 15:49	A community is a group of people that are passionate about a specific topic. The people in the community enjoy sharing that passion with eachother. Building friendships that lasts. The more diverse this group is the more fun it is, because you can explore different customs, traditions, ways of living,....
JBpAX6	Z2XIWA	2023-10-27 15:54	A community is important because life alone would be pretty boring. TOMORROWLAND also sees it that way and tries to bring people together with the festivals. That is also the reason why I always like to go to this unique festival! I have already met wonderful people through it.
8dW4VY	WRG5yL	2023-10-27 15:54	Community is a group of people who like or love the same things who come to support each other to maintain or expand the love of those things to others.
6dG865	19x5Jp	2023-10-29 20:57	Shared beliefs and passions, a similar way of living, and a unified outlook on life characterize us. We believe in selfless giving, supporting one another, and cherishing the present moment, echoing the tagline "LIVE TODAY, LOVE TOMORROW, UNITE FOREVER". At Tomorrowland, we especially value an inclusive, global, celebratory, educated, and positive & open mindset.
EPek2A	pD5RQZ	2023-10-29 20:59	A community is a group of people who share their passions, feel the same flow and speak the same language. This is a group of people who inspire trust and you feel understanding. Tomorrowland brings people together. In 2015, I attended the festival for the first time. I met my current fiancé there and my best friends without whom I can't imagine my life. Speaking of the community, the nft discord group is a community which is special to me. Being a member of it gives you the feeling that it is worth investing in things that spark creativity in you and spread love for people.
YZX58v	Y4ey05	2023-10-29 21:00	Community is love and share
INXbQX	i65B6X	2023-10-29 21:00	Community is where you can go ask anything you want. And that there is just always someone who answers your question. Community is also something where you can go to just tell anything you want or how you feel. Or somewhere where you play games together, watch videos, listen to music, just having fun
LdBZQy	vPgvOv	2023-10-29 21:01	A place to find similar people and make new friends on the way
1rzWP1	JOgbdK	2023-10-29 21:03	Community means to me a group of people where you can be yourself, make yokes, laugh with each other and if you got questions or doubt you always have a 2nd opinion with 😊 Fun and nice to have!
YZXJzq	M1RWyA	2023-10-29 21:08	People coming together with a shared view of the world
YZXjd6	vPg1Qd	2023-10-29 21:10	Community means to me shared passion, shared emotions and unity. Having the same values in common and knowing that everyone has each other's back.
rIRDdL	W8bgjv	2023-10-29 21:11	Community, for me, is like a patchwork of people who've got each other's backs, whether we're close neighbors or connected online. It's where we share values, help each other out, and cheer on each other's wins. Whether it's the sports-club or your favorite discord group, it's all about finding your tribe. In these spaces, we learn, grow, and remember we're not alone in this crazy world. It's like a big, beautiful mess of different backgrounds and beliefs that make life interesting and colorful. In short, community rocks because it's all about connection and making our world a little bit better together.

Partying together as a community and reaching another state of consciousness with the common love to music that unites the community. The heart of the community is driven by the shared love for music. Every member of the community is immersed into the experience of the festival which is driven by sound, lights and all the positive energy at the festival.

Community is a topic that melts together and something we can get exited About.
DVEQ5N	oR0az5	2023-10-29 18:50	Actually, quite a lot. I work for Crime Scene Investigation in Brussels, and it's quite hard some times. Going online on discord and see people gathering, talking and having fun is actually giving meaning to my work. I can imagine people feeling safe going to Tomorrowland as well. I do it for the people, and seeing everyone happy and united is awesome. I know that I'm very far from being considered as active. I don't have much time to speak (even more since the 16th... No details needed...), but you can be sure that I read a lot on Discord. You guys do a great work on there. I had fun doing this scavenger hunt, and you can be sure that I'll be happy for the winner. I know this testimony can sound strange, so feel free to DM me on Discord if you want :)
BGVNIY	kNpaEj	2023-10-29 18:58	I Like the Community, but I am absolutely not into Games and Riddles. I Hope, you had fun.
7dg6Ja	Z2keoy	2023-10-29 19:15	To me, this community means unity between people who share a deep bond and a profound love for Tomorrowland. Regardless of where you come from, your background, or your appearance, we all come together as one big group of individuals who find solace and connection in each other, in the music that unites us, and in the shared passion we have for the things we love. This unique community at Tomorrowland feels like a family, a place where we eat, dance, and truly live, all under the spell of the same enchanting sound.

WAKv4P	RW54qj	2023-10-29 19:50	Happiness: I'm not extremely active on the Discord community. The times I spoke to people, they were lovely. However, I'm a Tomorrowland fan since a friend showed me the cool aftermovie when I was 14. I always watched the live streams, and throughout the years, I've enjoyed the sets on YouTube. When I turned 18, I finally waited in the ticket sale with 5 laptops.... and I couldn't get tickets. It took me 8 ticket sales to get my first tickets. So, my first time was in 2019. In 2022, I went alone, and that was the best weekend of my life. In 2023, I got the medallion to be sure I can go every year. In 2023, I brought 3 first-timer friends, and they loved it. I can't wait for the anniversary in 2024!

VZBAyg	o2gpzV	2023-10-29 15:11	As a member of a Discord Tomorrowland festival community, "community" holds significant meaning to me. In this context, community represents a group of like-minded individuals who share a deep passion for in my opinion the world's best festival. Here's what community means to me in this setting: * Shared Passion: Community means being part of a group of people who are all united by a common interest or passion for Tomorrowland. We all come together because we share a love for the music, the artists, and the overall festival experience. * Connection: It represents a space where we can connect with people from all around the world who may have different backgrounds, cultures, and experiences but are linked by a common love for Tomorrowland. It's a place where we can form meaningful connections and friendships. * Support: In a Tomorrowland community, we support one another. Whether it's sharing information about ticket sales, lineup announcements, or discussing our personal festival experiences, the community provides a support network. We can ask for advice, share tips, and even empathize with the struggles and joys of being a Tomorrowland enthusiast. * Unity: Community signifies a sense of unity and belonging. It's a place where we feel like we're part of something bigger, something that transcends borders and differences. This unity is particularly evident at events like Tomorrowland, where people from all over the world come together to celebrate music and life. * Shared Knowledge: The community is a valuable source of knowledge and information. Whether it's about the festival's history, travel tips, or insights into the EDM scene, the community provides a platform to learn from others and share our own experiences. * Celebration: In the context of a Tomorrowland community, it's a place for celebrating the anticipation and memories of the festival. We share our excitement as the event approaches, and we reminisce about the magical moments we've experienced during past editions. * Inclusivity: A Tomorrowland community should be inclusive, welcoming all individuals who have a love for the festival, regardless of their background or identity. It's a space where diversity is celebrated, and everyone is encouraged to participate. * Respect: Respect for one another's opinions and perspectives is a fundamental aspect of the community. Even when we may have differing views on music or other aspects of the festival, mutual respect allows for constructive and open discussions. * Contribution: Community also means actively participating and giving back. Whether it's by sharing your own experiences, helping newcomers, or organizing events or meetups, contributing to the community enhances the sense of belonging and the overall experience. In summary, the Tomorrowland community is not just a group of people who enjoy the same music; it's a place where we come together to celebrate our shared love, support one another, learn from each other, and create lasting memories. It's a network of like-minded individuals who become a second family, connected by the beats of Tomorrowland.
OAe92p	xVaaGv	2023-10-29 15:15	This community for me is a symbol of unity that proves no matter where you come from and what are your opinions it is possible to talk celebrate life together!
AIOO6W	eaO28E	2023-10-29 15:26	Community is the place where people of the same interest gather, share information, help each other and laugh together. We suffered together on how to find larry, and in the end, we still laugh together on how relatively easy it was. It is a place to belong to, a huge group, where we can call every person friends. It connects people.
OAeKzY	o2QzQx	2023-10-29 15:43	A kind and always positive, funny, and present people from all around the world that makes me happy there is always someone around to joke, laugh, share music, and play. 8dgbY5	2KZGoM	2023-10-29 16:51	Even though I joined quite recently and I've not been an active member of the community, I find the idea amazing of bringing the core fans of the Tomorrowland fan base together. We all come from completely different countries and cultures, yet there's one thing we all share: our commitment and love towards this amazing festival, which also opens up opportunities for making distant connections and friendships. Here I would also like to take the opportunity and thank for the huge efforts the admin team put in the Scavenger Hunt, and in bringing the community together in general. This week has really been a distinct experience that brought some excitement to our everyday lives. So long story short, hats off!
9dgKX1	VzBjPj	2023-10-29 17:18	Experience and explore things together. Be part of something special
eBJAXx	d9GK9A	2023-10-29 17:22	I have very little time in the tomorrowland nft community, but I see that it is a great community, I could see it in the tomorroland 2023, everyone was a big family. So I am very happy to be part of it now.
Wak71a	PpXgV	2023-10-29 17:28	I (assume you are talking about the NFT community) I can't spend a lot of time in Discord, in general I am not supposed to watch screens for a long time because of eyes issue that is progressive and can't be cured. However I try to sneak from time to time, since this group feels like a big family. Members could share sad and happy moment, feel protected and loved. They can joke and have fun of each other... it's amazing place to disconnect from the stress and problems in everyday life. However I feel a bit sad that I can't make friends with everyone and get to know better these people. Keep up the good work!!!
KMNjAK	vPpVBQ	2023-10-29 17:31	Meeting the community at tml was one of the most eyeopening experiences of my life. The way that a person can open up their heart to someone they met online really changed my view. I cannot wait to meet everyone in person again.

DVPW05	yJv0p8	2023-10-28 19:39	To me, community is akin to an extended family, and the Tomorrowland NFT Community epitomizes this sentiment. Just as family members support one another through thick and thin, so does this community. Being a part of it means having an unwavering support system, individuals who understand you, who resonate with your thoughts and passions. It's about forging connections, embracing new experiences, and embarking on unforgettable adventures together. It's a space where you meet like-minded souls, share laughs, learn, and grow collectively. Put it, it's where you feel a sense of belonging, and where every member plays a part in weaving the tapestry of shared experiences and memories. Live Today, Love Tomorrow, Unite Forever <3
PAe49d	2KZID9	2023-10-28 19:56	Friendship, happiness, kindness and just be there for each other! Live today, love tomorrow, unite forever :-)

VZAaGy	LDWEW2	2023-10-28 21:31	i think the nft project of tomorrowland is unique in the world. i think it's an amazing technology and not only for speculation but this project show the way to use it. We are in bear market and 99.99% of nft loose her utility but you are to 0.01 % First time i hear about it it was when solana crash and a random twitter say , with the price of solana, go all in in tomorrowland nft.... after some research, i understand what to do and bought it ! i discover my first tomo this year and now i'll go each year. but also every time i need help , i can go on discord, answer take 5 secondes, when i doubt how to buy my first nft, how to change usdt in solana and it motivates you to do the same i already talk about it to my friends who buy also his nft... my only regret it's not meet more people of community but next year i'll drink some beer with them ! thank you for the serious of this project, not for this larry where i nearly finish in asylum, but go on make us dream !

WABY8J	pDM188	2023-10-29 00:48	For me, community is the essence of Tomorrowland. It's the unbreakable bond that brings us music lovers together, both yearly at the festival grounds, and also right here on our Discord and its events. It's the joy of sharing our passion, experiences, and dreams. The Discord community is a virtual space that keeps the Tomorrowland spirit alive all year-round. Community means being part of something larger than ourselves, a feeling of togetherness that transcends time and distance. We are Tomorrowland: live today, love tomorrow, unite forever! 🎶🔥
g51yrd	g9Vo2N	2023-10-29 02:41	Community is a place where individuals that Share a Common Goal, reunite to discuss and talk about certain likes and dislikes they may share, the potential problems and solutions of the environment we share, and make the best out of every situation. To me, one of the most important aspects, is that a Community creates a Safe Haven and a sense of inclusion, where everyone feels as equally important to the Community, and works as well helps, each other out (regardless the situation) towards that same shared Goal. I've been part of many Communities before, but none of them have been as Welcoming, Friendly, Caring, and as Truly Magical as the Community of Tomorrowland has! Regardless if we are doing our bests for this challenge, the most important part is the moments we had along the way, having fun, the ridiculous amount of laughs and smiles, and specially, making new unexpected friendships. It's incredible how small actions of kindness can change the World for the better, and Tomorrowland as well as the community have been showing that and making that difference, little by little, so thank you to those that are involved in helping as best as they can in this Magical Adventure that we call "Life" ^.-^ (Wish i could do more as well) Live Today, Love Tomorrow, Unite... Forever... <3

24yayA	W8gXxv	2023-10-28 12:35	Community for me is a connected feeling that is forged through shared experiences. Life for me isn't a solo journey. OA976K	Vzd8Ng	2023-10-28 13:19	Community for me is a feeling like being at home and also familiar. One receives support and is peaceful. There are no quarrels and you can rely on each other. Likewise, there is no envy. Since in a community the same goals are pursued or one even pursues the same interests, one can network well and make contacts. Thus, one is never alone. This is given here on Discord and also on Tomorrowland itself. There is no quarrel, only love. Community spirit is a high priority for me in my life and that's why I'm so happy to be a member of the TOMORROWLAND community.

AlGx5k	97a8tX	2023-10-28 15:36	To me, 'community' within the context of Tomorrowland and its Discord channel is a symphony of voices from all over the world, coming together in a digital space to celebrate a shared passion for music. The Tomorrowland Discord is not just a chat room; it's an extension of the festival itself, a place where memories are shared, new friendships are forged, and the magic of Tomorrowland is felt every day, even when the stages are silent. It's where we discuss our favorite sets, share our experiences, and count down the days until we can be united under the Tomorrowland sky once more. In this community, every message, every shared song link, and every virtual interaction is a testament to the power of music and technology to bridge distances. The Tomorrowland Discord embodies the spirit of 'Live Today, Love Tomorrow, Unite Forever,' proving that no matter where we are in the world, 'Together, we are a melody that resonates beyond screens and stages.'

People often say that blood is thicker than water in reference to having a community of family members having stronger bonds than those who are outsiders. But I feel like finding your own community is vastly more important to ones growth as a person and it usually becomes a major benefit to the individual to branch outside of their built in family community. I think this tomorrowland nft community is fantastic because we are all here to have a good time at tomorrowland and create great memories along the way. Bonding over our frustrations at this task and that damned welcoming NPC is a prime example of that. Our mothers will never understand that struggle, but our brothers and sisters of the discord do!

riWOVL	195bdL	2023-10-27 20:13	Since 2012, every year, I have embarked on a journey to a parallel universe: Tomorrowland. This place is more than just a festival to me. It's a land of promise, a space where dreams come alive, and souls meet. Each edition has gifted me with priceless memories, but it wasn't until 2022 that I realized how far the magic could extend beyond these enchanted lands. With the advent of Tomorrowland's NFT project, a new chapter began. By joining this project on day one, I opened a door to a dimension I could have never imagined. Through it, I met souls who, like me, pulse to the rhythm of electronic music. Panda, Loulou, Trevor, Phil, Debbie, Florian, Lucas, Francesca, Dean, Kevin, Remi, Maxime, Larry, Arben, Tom, Marco, Nathan, Aimee, etc... These names now resonate within me like a familiar melody. Each one of them is a note, and together, we form a symphony. And how can I not mention Mathieu, Ingried, Cedric, Jean-Laurent, Geoffrey, Gary, Hector, Kevin, Kevin, Nicolas, Robin, Romain, and Sam? My friends, whom I so earnestly pleaded with, convinced, and finally saw join this NFT adventure. Seeing them integrate and experience this passion alongside me is an invaluable gift. This community is much more than a group of music enthusiasts. It's a family. A family that transcends borders, languages, and cultures. We find ourselves, even far from Tomorrowland, at events like Panama Open Air in Bonn, Primavera Sound in Barcelona, Fred Again in Brussels, Illenium in Brussels, etc... These encounters, these shared moments, these dances until dawn, are living proof that music is more than just melody. It's a connection, a bond that unites and brings us together. Way stronger than a virtual community. Soon, I will be flying to 'The Eat Your Own Ears Warehouse Project' event curated by Skrillex in Manchester. I already know that several members of our NFT community will be on the same plane and event. And even though I'm going there alone, I know I'll never truly be alone. Music is the language of the soul, and this community is living proof that when hearts beat in unison, they can create an eternal melody. For me, this defines the profound meaning of the word "community." A chosen family, brought together by the love of music, and the desire to experience exceptional moments. And through this adventure, I've discovered one thing: it's together that we create the most beautiful melodies. Live Today, Love Tomorrow, Unite Forever. Lucas

Nobody wants something evil to each other. At tomorrowland in belgium we talked to each other and danced together. Nobody was a stranger or left behind. It was very nice to see the faces behind the screens from discord.

Its so nice to travel alone and meet new people. Made me so much friends in tough times. All love to you guys.
YZy5PW	KVyr0V	2023-10-27 18:26	Community means a common feeling of warmth to me. Especially with the tomorrowland community both on the festival and in the NFT discord it's giving me a glow! Although I was not a fan at all when I entered the grounds for the first time it took only minutes to transform me into an addict. I'm pretty sure it was that inside glow that I've got from the happy people at De Schorre combined with the magnificent fairy decors that hooked me. Since that day entering the Amicorum Spectaculum I couldn't forgive myself not taking part in the yearly feast with this wonderful community <3
EPYke4	6Z4Wae	2023-10-27 18:38	I'm new to this community but I love how welcoming and loving everyone is! Can't wait to meet people in person one day. The rave community I'm part of in America has changed my view on the world, helped me feel comfortable in my own skin, and given me so many friends that I'm truly grateful to have in my life. I'm excited to extend that community to other places in the world next year and cannot wait for summer 2024!

And especially for Tomorrowland: spending a great time together driven by music to forget everything else for a moment and just enjoy the positive energy, beats, lights, lasers and fireworks and all the lovely people around you. To create lots of positive memories and the eagerness to relive those feelings as many times as possible (also the main reason why I decided to invest in the NFT Medallion).

This community or, better said, the "People of Tomorrow", is proving to be an incredible way to strengthen our personal bonds of friendship and affection. Thanks to the NFT community, of which I am a part, I have laughed, had fun, and had an amazing time. We have a high-caliber community, strong and united for a common cause. Personally, I love meeting people and connecting with individuals from different cultures, nationalities, and entirely different mindsets, where we all stand together as brothers and sisters. I wanted to learn more about the nft program and also liked that there were other people from around the world on there. It really made my first year a memorable experience because even though I went with my own group of friends, it was great to meet everyone I had been

						chatting with online in real life and that was a special experience. Now I have friends throughout the world and am excited to see them again this year.

ajglGy	axB5Xb	2024-03-23 22:04:46	Belgium	TML Discord, a number of crypto/NFT based communities, Tesla Community,...	I enrolled myself. The process is a bit strange at first, specially ending up in a space with nicknames and no real names discussing personal things and finance related things like NFT's and it's perks.	I like to be more connected to one of the brands I value and the people behind that brand. It is still in my hopes and dreams to work for TML with my company to help their internal processes and collaboration.

For a while I just viewed the posts in this community but decided to join to feel more a part of the group and receive notifications on new posts. I check this daily, I feel like the most valuable information from people's experience is here. People are friendly and willing to answer questions. There's also a layer of anonymity in Reddit so I feel safe in a way.
ajXZ62	oBBIK5	2024-03-24 23:07:42	Belgium	NFT	I did it myself there is a clear site, but it could be updated. NFT's in general or not that easy and the 3 collection are even less maybe forging would help because it is only 1 to buy then. A simple way to buy the NFT/'members hip' on the website with \$/€ would be the best imo.	It is awesome we talk as if we are friends made new friends from all over the world. And the NFT pre sale benefit. Also the times lots at restaurant for holders was awesome to make friends. A bit like summer camp but for "older" people.

JVje87	Vl8roJ	2024-03-25 18:33:51	Netherlands	🌱🌱TML:Life🌱🌱117 Days from Pim	whatsapp. Its a big group and its nice that you can just go book tickets and ask later in that group who is also going. Then you can meet them. Of course for TML, there are a lot of people from that group going. The biggest challenge is to get tickets. A lot of times, just like for this year, just a small part of the group can join. It would be much better that everyone from the group can join, if they want.. But tickets are rare	Easy to find people, hangout and to help each other if needed.
